# SITUATION SUMMARY

## Cal OES SOUTHERN REGION

### Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- 1 AmeriCorps San Diego Spanish language interpreter responded to conduct surveillance (education/outreach), with a two week rotation.
- The USDA National Incident Management Team (IMT) arrived on 06/01/18 and teamed up with CDFA personnel at the CDFA Ontario District Office.
- As new areas require surveillance, parishes in these areas will be contacted. The Cal OES AREP has scheduled vND Spanish speaking veterinarian presentations at three (3) Catholic Parishes on 06/09/18 (one mass) and 06/10/18 (four masses). As presentations are scheduled the Cal OES AREP will provide a parish bulletin announcement, mass announcement for the priest, talking points, and all the materials that will be distributed following the masses.
- The Cal OES Agency Representative (AREP) is facilitating a contact with San Bernardino County Solid Waste Management Public Works (SWMPW) via San Bernardino County OES to determine the possibility of using sites for disposal of backyard dead birds.
  - SWMPW has prepared a draft Board agenda item pending receipt of the USDAs Agreement. USDA has located a contracting officer to begin drafting the agreement with SWMPW.
  - Landfill work group is seeking alternate sources for the disposal of dead birds. The Cal OES AREP continues to assist with gathering information on Covanta Energy, composting at fairgrounds, while others researched the National Veterinarian Stockpile. The Cal OES AREP contacted fairgrounds in San Bernardino County regarding a project to compost bird carcasses; environmentally acceptable method of disposal of normal poultry flock mortality.

### **Activations**

- San Bernardino Operational Area (OA) Emergency Operations Center (EOC) is activated to Level 3 (lowest level) and will continue to monitor the incident.

### **Deployments**

- 1 Cal OES Southern Region Senior Emergency Services Coordinator (Sr. ESC) deployed to the CDFA/USDA ICP as an AREP with an operational period of 0700-1900 hours.

### **Logistics**

- Per the Cal OES Southern Region AREP on 06/09/18 at 0820 hours:
  - USDA is inquiring with private real estate companies since they have the ability to lease directly as well as the DGS via CDFA.
- Logistics has located a facility in Rancho Cucamonga. USDA/CDFA are currently in negotiations. The office/warehouse space adjacent to the CDFA District Office has been placed on hold by USDA. The ICP is now looking for a nearby hotel conference room. The ICP requested that the Cal OES AREP continue to pursue space at the Ontario International Airport as part of a contingency plan. An appointment with the Ontario International Airport Authority for 06/11/18 for a discussion between Logistics and the OIAA.
- See Fire Activity slide.

## **COASTAL REGION**

### **Eastern, Vegetation Fire, San Benito County**

Location: 5 miles East of Bitterwater

Jurisdiction: State DPA, SRA/FRA, San Benito-Monterey Unit/BLM

Per Cal OES Duty Officers and ICS-209 as [06/10/18 at 0600 hours](#):

- 513 acres, 90% contained
- Expected Containment: 06/13/18
- Acreage reduced due to accurate mapping
- Ground resources continue to mop up and patrol

### **Airline, Vegetation Fire, San Benito County**

Location: 16 Miles NE of King City

Jurisdiction: State DPA, SRA San Benito Monterey Unit

Per Cal OES Duty Officers and ICS-209 as [06/10/18 at 0555 hours](#):

- 1,314 acres, 90% contained
- Expected Containment: 06/20/18
- Ground resources continue to mop up and patrol

# FIRE ACTIVITY

## INLAND REGION

### Chrome, Vegetation Fire, Glenn County

Location: Hwy 162 x Forest Hwy 7, North of Elk Creek

Jurisdiction: State DPA, SRA, Tehama-Glenn Unit

Per Cal OES Duty Officers and CAL FIRE as 06/10/18 at 0610 hours:

- 2,252 acres, 35% contained
- Expected Containment: 06/13/18
- Continued structure threat
- Evacuations in progress

### **Activations**

- Glenn County has activated their EOC at Level 1 (low staffing) as of 0600 hours.

### **Evacuations**

- Evacuation notice was sent to 58 homes

### **Evacuation Center**

- Glenn County has resumed to stand-by status due to no shelter population:
  - Willows Memorial Hall, 525 W Sycamore St., Willows

### Apple, Vegetation Fire, Tehama County

Location: Apple Rd. x Paskenta Rd., 9 miles west of Corning

Jurisdiction: State DPA, SRA, Tehama-Glenn Unit

Per Cal OES Duty Officers and CAL FIRE as 06/10/18 at 0604 hours:

- 2,500 acres grass, 63% contained
- Expected Containment: 06/12/18
- Structures threatened
- Erratic winds over the fire

### **Evacuations**

- There are no evacuations.

# FIRE ACTIVITY

## SOUTHERN REGION

### South, Vegetation Fire, Los Angeles County

Location: I-5 x Calgrove Blvd., City of Santa Clarita

Jurisdiction: Local DPA, LRA, Los Angeles County

Per the Cal OES Duty Officers and CAL FIRE as of 06/10/18 at 0542 hours:

- 175 acres, 50% containment
- Expected Containment: 06/12/18
- No requests for state assistance and no unmet needs at this time

### **FMAG**

- On 06/09/18, a Fire Management Assistance Grant (FMAG) request was received. The request has been placed on hold.

### **Evacuations**

- Approximately 200 homes were evacuated.
  - As of 06/09/18 at 2020 hours, the LDO advised mandatory evacuations lifted for 200 residences.
  - Identification required for re-entry for residences located south of Calgrove Blvd., east of the I-5 Freeway, and west of Ebelden Ave., Newhall

### **Evacuation Center**

- Human Evacuation Center: American Red Cross (ARC), College of the Canyon – West Gym, 26455 Rockwell Canyon Rd., Santa Clarita
- Small Animals Center: Castaic Shelter, 31044 Charlie Canyon Rd., Castaic
- Large Animals Center: Pierce College, 6201 Winnetka Ave., Woodland Hills

### **Critical Infrastructure**

Per California Utilities Emergency Association as of 06/09/18 at 1816 hours:

- No power loss, grid is stable (only 66kv lines in the vicinity)
- Southern California Edison is at the fire location

## California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

### 911 Outages/Remote/Community Isolations:

#### 911 Outage, Glenn County & Tehama County

On 06/09/18 at 2112 hours, the California State Warning Center (CSWC) was advised by CA 9-1-1 Branch that a 9-1-1 outage occurred in the Elk Creek, Stony Gorge, and Paskenta areas in Glenn and Tehama Counties.

- The outage was caused by the Chrome Fire
- Local Public Safety Answering Points (PSAPs) have not been affected and are able to receive 9-1-1 calls
- As of 06/10/18 at 0550 hours, AT&T advised there was fiber damage.
  - Splicers are onsite installing 2,000 ft of aerial burnt fibers.
  - 20 poles were destroyed as a result of the fire
  - Replacement cable has been ordered and should arrive this morning, 06/10/18
  - No estimated time of repair

### Service Interruptions:

- None reported.

# **WEATHER OF CONCERN**

## **Weather of Concern**

- Red Flag Warning for strong north winds and low relative humidity has been extended through Monday morning over southern Santa Barbara County.
- A Freeze Warning is in effect for portions of Modoc and Siskiyou counties through this morning.

## **Weather Advisories, Watches, and Warnings currently active in California:**

## **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

Today will partly cloudy, but no rain is expected. Temperatures will still be a few degrees below normal, and relative humidity (RH) will drop into the middle teens in the driest inland valleys. NW-NE winds will gust to 25 mph in the morning, but turn back to SW-NW with gusts of 20-30 mph in the typical areas in the afternoon. The final portion of the trough will move out of the region late today as a high pressure ridge pushes in.

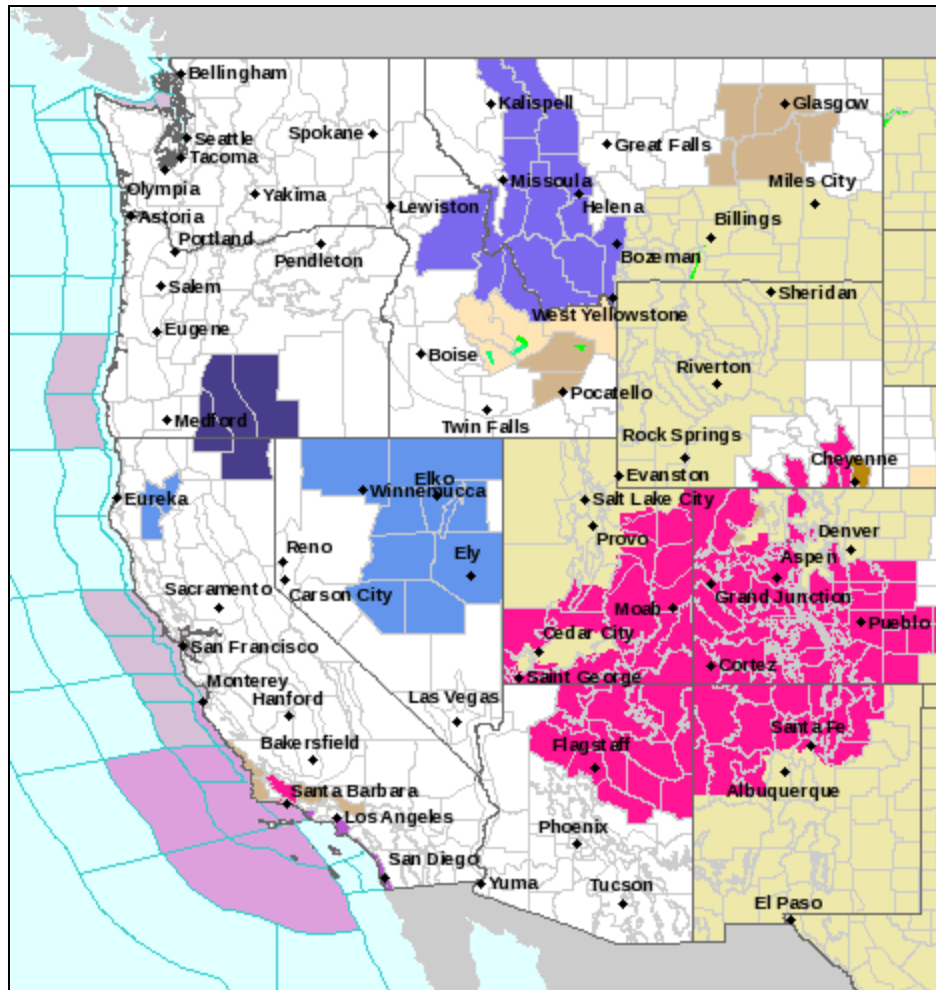

The ridge will produce a drying and warming trend through Tuesday, with the warmest inland areas reaching 95-100 on Tuesday. Minimum inland RH will be 12-20% both days. Another Pacific low pressure trough will produce cooler and more humid weather Wednesday through the end of the week, with a chance of mountain showers next Friday.

## **SOUTHERN CALIFORNIA**

\*\*\*Strong northerly winds across Santa Barbara County and the Grapevine tonight\*\*\*

There will also be northerly winds of 20 to 30 mph with gusts to 50 mph across much of Santa Barbara County and the Grapevine Area tonight as the back side of the trough moves through. Temperatures will be near normal this weekend, with mid 60s to mid 70s across the mountains and upper 70s and 80s in the valleys. Minimum humidity will be mainly between 15% and 30% away from the coastal areas this weekend, but there will be widespread single digit humidity across the deserts. A ridge of high pressure will build into the region from the southeast causing temperatures to rise to 5 to 10 degrees above normal and minimum humidity to drop mainly into the teens Monday through Wednesday. There will be westerly afternoon and evening winds of 15 to 25 mph with gusts to 40 mph across the desert passes early next week. A weak trough will drop down the West Coast bringing near normal temperatures and a little increase in humidity late next week. This trough will also cause the westerly afternoon and evening winds across the desert passes to increase to 20 to 30 mph with gusts to 50 mph Wednesday through the end of next week.
